Performance Report

Key Performance Summary:
Over the current period, total advertising sales reached $87,216, with an ACOS of 17.81%, indicating a stable cost-to-sales ratio. However, a slight decrease in total impressions and clicks compared to the previous period suggests potential areas for optimization.
Critical Insights:

- Sponsored Products (SP) campaigns contributed 81.13% of total sales, but with a higher ACOS of 19.69%, indicating room for cost efficiency improvements.
- The Sponsored Display (SD) campaigns showed a strong ROAS of 18.64, suggesting effective targeting and conversion strategies.
- Conversion rates improved to 7.19%, up from 6.61% in the previous period, highlighting enhanced ad effectiveness.

Next Steps:

1. Conduct a detailed review of SP campaigns to identify high-cost, low-performing keywords for optimization or removal.
2. Focus improvements on bids and campaigns with good performance to spend is allocated efficiently
